12 April 1967

MEMORANDUM TO:

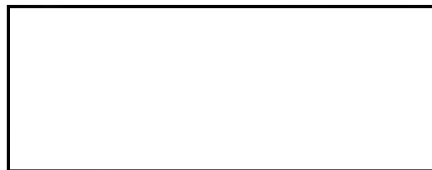

25X1A

SUBJECT : Request on Iran

I have been asked to find some material bearing upon developments within Iran which might have prompted Iran to seek Soviet arms.

Col. Nichols, the requestor, is looking into the political and economic implication of military assistance and arms acquisitions. He is particularly concerned with the Iranian shift towards arms procurement from both the US and USSR. What brought on the shift?
